

RIVA DEL GARDA FIERECONGRESSI SPA: BUSINESS CONTINUES

The current situation is causing all of us great difficulty and concern stemming from the spread of Covid-19, and Riva del Garda Fierecongressi is monitoring its evolution and taking directives from the appropriate authorities, adopting all necessary preventative measures. The activities conducted by the exhibition and congress centre in Trentino will continue, whilst fully respecting the safety and work of all those involved.

ORGANISATION OF ACTIVITIES

In the light of instructions issued at national level and ordered by the autonomous province of Trento, Riva del Garda Fierecongressi has suspended the execution of all events until April 3rd.

In this period, in accordance with health instructions as well as the ministerial decree of March 9th 2020, which can be fully consulted on the Official Gazette website, we are limiting entry into the company premises by clients and suppliers and opting for distance working for our staff, who remain at your complete disposal by telephone, email or videoconferencing in order to answer any questions you may have and continue business as usual.

HEALTH MEASURES

With meticulous respect for all government instructions, it is our priority to ensure the utmost care of our company's offices and premises, by consulting experts and carefully evaluating the health measures to be adopted in order to ensure the peaceful development of future events.

Considering what is currently happening, we reserve the right to review our plans in the event of further ministerial instructions, and also those of the organisers of events hosted by us, as well as the companies and partners in this sector all over the world and in Europe, with whom we are in daily contact.

The staff of Riva del Garda Fierecongressi will therefore maintain maximum attention and will take an active part in reconciling the existing measures with the needs of organisers and guests, communicating with all interested parties in a timely manner.
